Fiscal Analysis

- ASSUMPTIONS:
- Department of Agriculture (DOA)**
- SB 107 revises the Agricultural Chemical Ground Water Protection Act to permit the department more flexibility. The bill should not change the amount of revenue received by the department.
 - Revising the act may allow the department to forego a more costly Specific Management Plan in some situations in the future. Alternative management options may save the department and the agricultural industry money by implementing more cost effective and suitable measures.
 - There is no fiscal impact.
